PROFILE

From an early age, I've had the privilege of working in over 60 professional productions in the West End, theatre, film, and television, which instilled in me a high level of adaptability, creativity, and collaboration skills. Building on this foundation, I transitioned my passion into tech, specializing in JavaScript web app development, data analysis with SQL, and writing open-source game mods and plug-ins for online communities. I am now seeking a long-term opportunity where I can utilize my unique blend of social, creative and technical skills to make a meaningful contribution to a company.

WORK EXPERIENCE

OPERATIONS TEAM LEADER

HOOD GROUP - TICKER INSURANCE | SOUTHEND-ON-SEA | 2024 - CURRENT

Promoted within Hood Group's management, my role was focused on managing a team of over 40 agents to handle insurance, claims, and underwriting queries. I worked with the client to improve our processes, while rewriting and updating our training material and presenting ideas for enhanced task efficiency and work optimisation. I learned how to manage a team effectively, identify areas for improvement, and implement streamlined processes that benefited the entire team.
